What is SM Hacks II?

SM Hacks II is a student-run hackathon aimed at high school students in the Bay Area. Eager high school students with a varying level of programming experience will gather to create products and solutions for today's challenges. SM Hacks II will offer attendees an inclusive, diverse environment to share unique ideas and make them realities. Last year, we hosted over a hundred students with the support of over thirty sponsors; this year, we are aiming to host 200+ students.

Why sponsor us?

Sponsors will have an amazing opportunity to connect and interact with the next generation of programmers and entrepreneurs. Your company will be able to teach and reach out to these students, a chance to effectively advertise your products and make a lasting impact on them. The resources you provide and what you teach will greatly influence what languages, APIs, and other tools these developers utilize in their future ventures. Additionally, you could send recruiters to search for interns and other talent.

Where will your money go?

All of the funds will go towards food, swag, prizes, and anything else needed for the optimal hacker experience at SM Hacks II. Our fiscal sponsor, Hack+, is a 501(c)(3) nonprofit organization so all donations to SM Hacks II are tax-deductible.

Other ways to help

- Send mentors to teach and guide students
- Sponsor a meal, snacks, or drinks for the hackers
- Support students with resources to use (ex. APIs and hardware)

Feel free to contact us at sponsors@smhacks.com if you have any additional ideas, questions, or concerns.
